## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Hsu on 8/2/2004.

The application has been amended as follows:

In The Specification, on page 1, between the Title on line 1 and "Field of the Invention" on line 2, add the following: --This application is a continuation of U.S. Patent Number 6195101, filed April 6, 1998.--

2. This action is responsive to amendment filed 06/22/04.
3. Claims 53-60 are pending in the application.

### ***Reasons for Allowance***

4. Claims 53-60 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Claims 53 and 58, the prior art does not teach a method and system for positioning and adjustable image relative to a cutout region within a foreground image,

comprising: identifying a zone of interest in the adjustable image (to automate the repositioning in another template possible); an image transform generator for determining effective translation and scaling parameters (re-center, rescale and rotate image) so that upon translating and scaling the adjustable image accordingly a portion of the zone of interest appears within the cutout region without changing the aspect ratio of the adjustable image. The closest prior art Matsumura (5,949,431) teaches an adjustable image (target image) relative to a cut-out region (cutout mask). However, Matsumura does not teach translation and scaling parameters (re-center, rescale and rotate image) the adjustable image accordingly a significant portion of interested zone appears within the cut-out region without changing the aspect ratio of the adjustable image. These distinct features render claims 53 and 58 allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
